

Biological Science Technician/ Field Biologist

A.I.S., Inc. is currently accepting resumes to meet the staffing needs of a number of potential projects in the Gulf of Mexico. We are currently seeking candidates with demonstrated experience conducting environmental sampling and data collection aboard NOAA research or other ocean going vessels. The position will entail the investigation of fish kills, water quality testing, and/or oyster testing aboard trawl vessels in a bay/estuarian environment. Deployments will vary in length from a few days to several weeks and will be staged along the Gulf Coast from Louisiana to Florida. The positions filled for this venture will be full-time and pay will be commensurate with experience. Interested candidates are encouraged to learn more about A.I.S., Inc and to fill out the online application by visiting the website at www.aisobservers.com. In addition please email a current resume and cover letter to: 58984@aisobservers.hrmdirect.com
